Dear Friends,

Today the Congress is considering a new energy policy for America. I favor a policy that:

1. Reduces our dependence on foreign oil,
2. Emphasizes conservation and new technology and
3. Improves our protection of the environment.

In major legislation before the House, we will vote on a bill that sets a new mileage standard for cars and light trucks, sets a renewable electricity standard and provides tax incentives for clean, renewable energy.

What do you think? Please fill out the questions below so that I can hear directly from you.

It is an honor to represent you in Congress.

Very truly yours,

Sincerely,

Mark Kirk  
Member of Congress
